Bronx, NYC

June 12th 2021

Experience

Guttman Community College IT Helpdesk Technician

Manhattan, NYC
Nov. 2022 – Current

- Provided technical support for software, hardware, and network issues at Guttman.
- Managed laptop/PC imaging, deployment, and equipment checkout/in.
- Maintained classroom technology (lamp changes, charger replacements, lockbox installs).
- Replaced toner, cartridges, and fusers; handled printer and workstation repairs.
- Assisted with event setups, including projectors, smartboards, and AV equipment.
- Delivered backup helpdesk support, created tickets, and resolved email/VPN issues.
- Monitored and managed spam/phishing emails, ensuring security.
- Supported ID card printing, equipment requests, and troubleshooting.

Progress Technology Solutions, [Inc](#) HelpDesk Intern

Manhattan, NYC (remote)
June 2023 – August 2023

- Conducted comprehensive review of Office 365 and administered portal functionalities. Collaborated with team members to address and resolve assigned tickets, showcasing effective problem-solving skills.
- Successfully obtained certification within a one-week timeframe.
- Proficiently set up a server using Ubuntu OS on a virtual machine, establishing a functional environment. Developed a user-friendly local database website, encompassing administrator and user account management. Enabled user autonomy by integrating self-registration features on the website.

Leadership & Activities

Guttman Community College Group Leader

City, State
March 2023 – Jun 2023

- During this time we developed programs for user's to input and let the program read those inputs and made our program useful for others. For example we created a class that calculates the Mileage for your car and one for a parking garage.
- Did a group project to calculate a Vehicle cylinders in the engine owner and then created a Truck class with inputs like load capacity in tons and towing capacity in tons.
- Project involved creating classes, implementing constructors and accessor methods, writing a driver program and presenting the work in a report and presentation.
- We used an IDE called Netbeans. We coded html and css, and a little bit of scripting. Worked on a project for [Women Pay wage](#).
